Hiring Manager
Siemens Healthineers

Dear Hiring Manager,

I am writing to apply for the AI Intern position at Siemens Healthineers. As a student currently pursuing a degree in Information Technology from NIT Raipur, expected to graduate in 2025, I am eager to leverage my passion for AI, digital storytelling, and video production in a dynamic role with a global healthcare leader. The opportunity to contribute to creating AI-generated video content using Synthesia and collaborating with innovative teams is exciting, and I am confident that my skills and enthusiasm will align with Siemens Healthineers' vision.

In my studies and personal projects, I have gained a solid understanding of AI and machine learning concepts, which I believe are essential to assisting in the creation and editing of AI-generated videos. I am also experienced in collaborating on technical and creative projects, and I am confident in my ability to support the marketing and content teams in producing video content that resonates with audiences. My keen interest in digital storytelling and eye for detail would allow me to contribute to brainstorming sessions and video content optimization, ensuring our projects meet both brand and project goals.

Additionally, I thrive in fast-paced environments and am skilled at managing multiple tasks and meeting deadlines. I have a strong aptitude for research, and I am eager to dive into best practices for AI-driven video production, providing insights and recommendations to the team. My ability to document workflows and processes effectively would also help streamline operations and enhance efficiency.

I am excited about the opportunity to work with Siemens Healthineers and gain hands-on experience with Synthesia, a leading AI video platform. I am confident that my passion for AI, strong teamwork skills, and creative mindset will make me a valuable addition to your team.

Thank you for considering my application. I look forward to the possibility of contributing to Siemens Healthineers and discussing how I can assist your team in shaping the future of healthcare through AI-driven content.

Sincerely,
Chetan
